

A close-up photograph of an adult's hand gently holding a child's foot. The child is wearing a colorful, patterned garment. The background is softly blurred, focusing attention on the hands.

Caring for Child Survivors Of Sexual Abuse (CCS) Training (Second Edition)

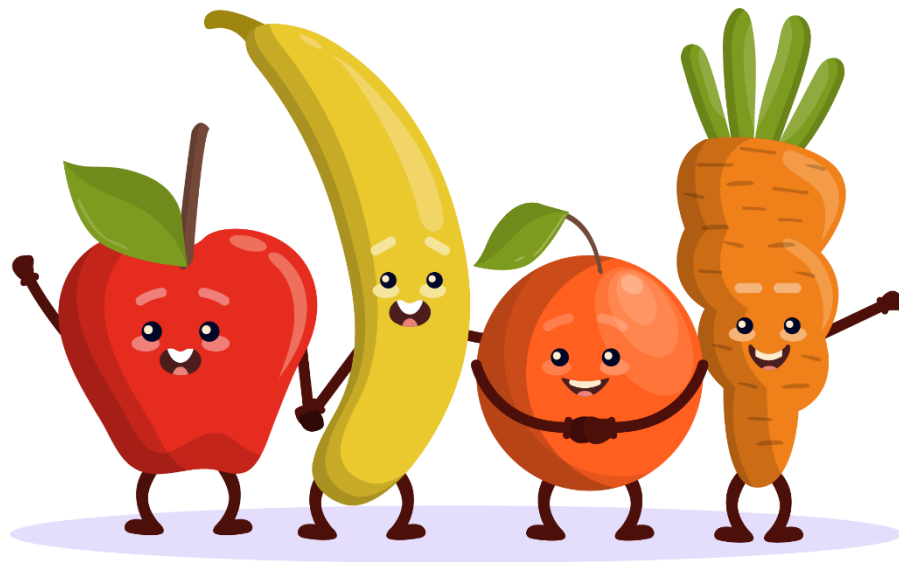

Opening Module

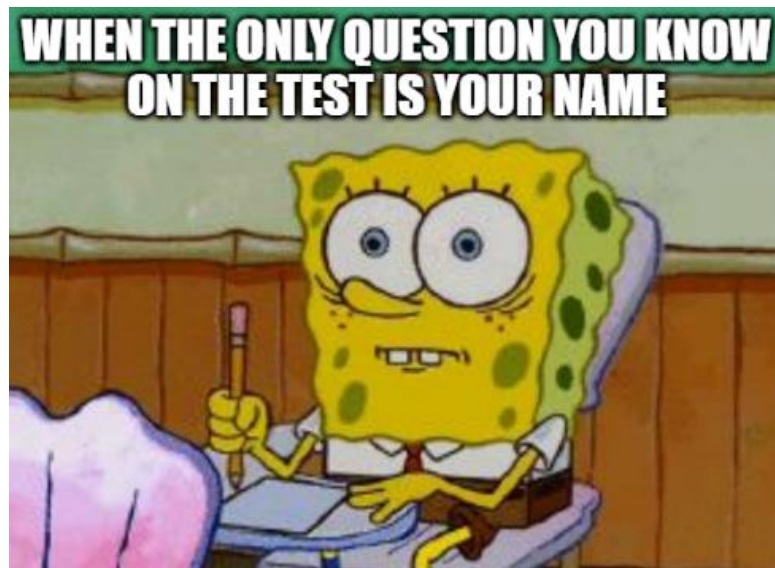

Let's get to know each other!

What fruit/vegetable/food are you?

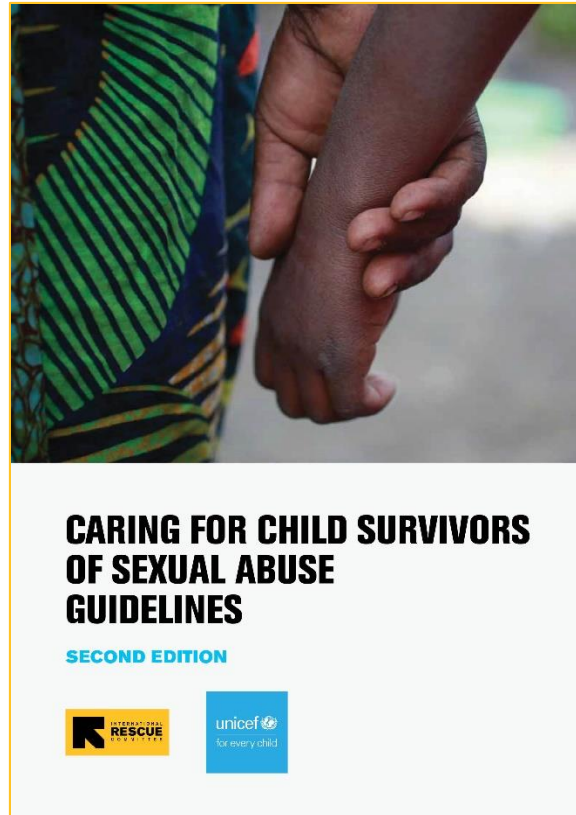

- Draw a fruit, vegetable, or food that you think best represent you.
- Introduce yourself (name, organization, location).
- Show your drawing and allow others to guess what food it is.
- After the correct food is guessed, share why this food represents you.
- Share one thing you hope to learn from this training.

Pre-Training Assessment

About the Caring for Child Survivors of Sexual Abuse (CCS) Guidelines

Training Objectives

1

Gain a solid foundation of technical knowledge needed to work with child survivors of sexual abuse.

2

Strengthen supportive attitudes towards young and adolescent girl and boy survivors of sexual abuse.

3

Understand how to navigate key issues in CCS case management using the CCS guiding principles.

4

Increase skills in building healing relationships with and providing psychosocial support to child survivors.

5

Strengthen collaboration between CP and GBV as well as other multi-sectoral actors.

6

Prioritize care and well-being for staff engaged in CCS work.

Training Approach

Training Agenda

Training Logistics

Bathrooms

Tea breaks

Lunch

Daily volunteers

Homework

Certificates

Group Agreements

Key Messages

- The training builds off your existing case management training and experience.
- Contextualization and adaptation of the training content while upholding the CCS guiding principles is critical.
- You will benefit from the training to the extent that you engage in and contribute to the training.
- This training asks a lot of you, so take care of yourselves to optimize learning.
